

**Product End of Life
Announcement
STREAMBRIDGE™ CR30 DPI**

Date: May 18, 2012

Dear Valued Triveni Digital Customer,

Triveni Digital is dedicated to providing our customers with the most cost-effective, feature-rich solutions. Given the rapid evolution of digital television standards and environments, we are committed to rapid product evolution and availability of cost-advantaged upgrades for our customers. In order to support these goals, our product strategy is highly software centric, and depends on industry standard hardware components as much as possible. While we are diligent to select vendors that can supply components for extended life cycles, at times we are forced to end of life certain products due to inability to source replacement components.

Notice

This memorandum announces the End of Life, effective August 31st 2012, for the Streambridge™ CR30 DPI Product (sold as part # SBRG-DCT-16CH)

As of 9/1/12, we will no longer be able to provide Non-Warranty service repairs, and no software upgrades will be available for these units.

At this time, Triveni Digital has no plans to offer replacements or upgrades for the Streambridge product line. We suggest you contact your preferred systems integrator for potential replacement products.

If you would like to discuss any issues, please feel free to contact me directly at 609-716-3537.

Sincerely,

**Kota Sribuddharaju
Director, Technical Services**
